OIL FILLED TRANSFORMERS

NEW PRODUCT – OIL FILLED GBE TRANSFORMERS

Following the big request by most of their clients, GBE S.p.A., specialized in the production of cast resin and dry type transformers and reactors, put forward again the design and the production of GBE oil filled transformers.

All GBE oil filled transformers are manufactured according to the IEC 60076 standards.

Besides the standard production, GBE also propose oil filled transformers for various applications, and particularly transformers for the distribution and special transformers with power up to 25 MVA and voltage class up to 130 kV.

The whole production is certified ISO 9001.2000 and ISO 14001.

At your disposal should you need any additional information or an offer for our products.
